

Accu-Chart®

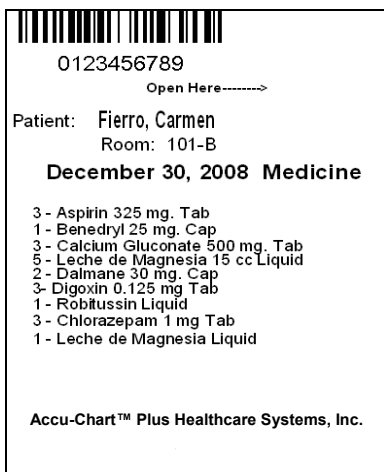

AccuPack™ RX

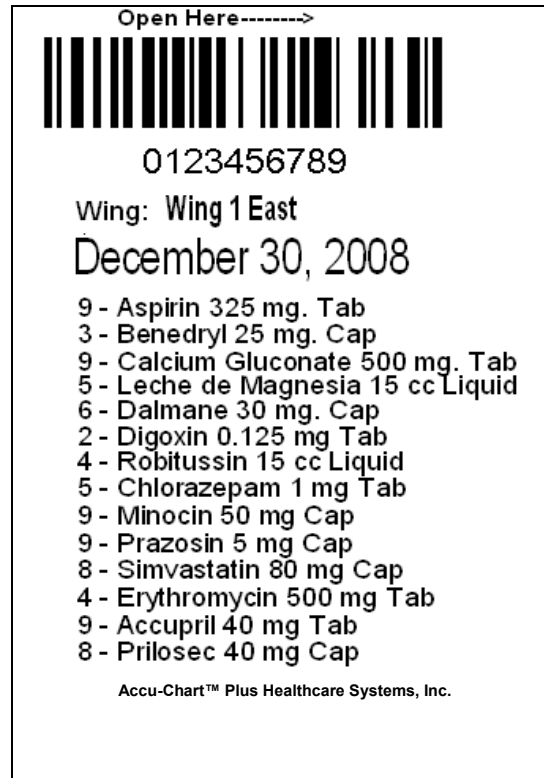

1. This is the front view of the New AccuPack™ RX. It has its own internal source of air to open up the bag so the technician can drop the item into the open bag. It has digital readout panel.

2. The AccuPack™ RX packages and labels up to 25 bags per minute. One color printing of barcode and text. Easy access to changeover material. Software and training included.

Bag Samples

3. Medications per day per patient (Front View). The front of the bag is white to print the information, and the back is clear so that the contents in the bag are visible.

4. Prescription medications for a day per wing (Front View).
