

A MaxiPak LLC Brand

# PACKIN STATION PRO

**The Packin Station Pro** is a major advancement in pharmacy unit dose packaging! It fills single-dose blisters and punch cards at up to 175 pills per minute with fully automated filling, fast enough for centralized pharmacies. It's twice as fast as a strip packer, 5x faster than traditional manual methods, cutting labor costs by up to 80%. No technical expertise needed to operate!

Available on a supply contract with no capital expenditure, or for purchase at \$12,500.

## What's Included:

- Packin Station Machine (1)
- Blister Paddle (2)
- Template Organizer Tray (1), Templates (9)

## Specifications:

## Unit Dose Blisters + 31-Day Cards

### MaxiPak Unit Dose Blister

MaxiPak Unit Dose Blister (Medium) Class - B Amber  
SKU: 35M

Our premium 35 cavity blisters feature moisture-resistant labels to maintain medication integrity and support patient safety. Built for consistent, high-performance packaging, they are trusted by hospital and long-term care pharmacies nationwide for their reliability, value, and cost-efficiency.

Heat seal your unit dose blister packs by hand, which requires heat sealing equipment.

### 31-Day Single Dose Punch Cards

SKU: MOT-130-25 (500/cs), Blisters (S, M, L, XXL, 1,000 /cs)

MaxiPak's 31-Day single dose blister punch cards are designed specifically for long-term care environments, making daily medication administration easy, organized, and compliant. Ideal for pharmacists and caregivers in centralized pharmacy settings, these cards promote medication adherence, and reduces errors.

Heat seal your unit dose cards by hand, which requires heat sealing equipment. **Blister sold separately.**
